HELPING STUDENTS SUCCEED

— *Since 1991* —

This year marks a major milestone for all of us at EC. We are very proud to have been helping students succeed in a global community for 25 years.

Since 1991, EC has grown from one small family-run school on the island of Malta to a thriving community of 21 schools in five countries across three continents. To this day, we are still a family-run organisation and we remain ever true to this ethos.

From our cutting edge academic research and development, to our unbeatable locations, to our beautiful school designs and facilities, we are committed to delivering the best learning and life experiences possible.

We know every student has their own motivations, goals and challenges, and we work to empower each individual to realise their own unique dreams and succeed. The result is a bigger, more exciting world full of potential – and truly global citizens!

Here's to you, and to our partners, students and friends the world over.

REACH YOUR GOALS

*Our mission at EC is 'Helping students succeed in a global community'.
Your studies with us will take you not only to proficiency, but into a world of
increased opportunities and broader horizons.*

THE EC GUARANTEE

Our guarantee to you is very simple.

Study Intensive English with us (30 lessons per week) and we promise you will progress at the rate shown on the progress chart opposite. If you do not progress as expected, we will provide you with all the additional lessons, help and support you need to reach your target at no extra cost.

All you have to do is:

- Be committed to learning
- Attend all your lessons
- Complete all of your homework, tests and assignments

Our method

EC employs a Communicative Approach in which students are given ample opportunities to develop the four language skills – reading, writing, speaking and listening. You will develop grammar, pronunciation and vocabulary. Communication is both the means and the goal for learning.

Our curriculum

EC's curriculum is benchmarked to international standards. Each lesson is focused on a specific topic to create interest, and begins by defining measurable learning objectives that provide a clear outline for progress.

Externally validated progress

You will take Oxford University's Online Placement Test at the beginning and end of your EC journey, meaning you leave with a level that has been validated by one of the world's top universities.

Every six weeks, you will take a level test. These were written in 2015 by professional authors with experience working for Cambridge and Oxford University Presses. The tests will provide detailed reports on your progress and ensure you are always in the correct class for your level.

Feedback and empowerment

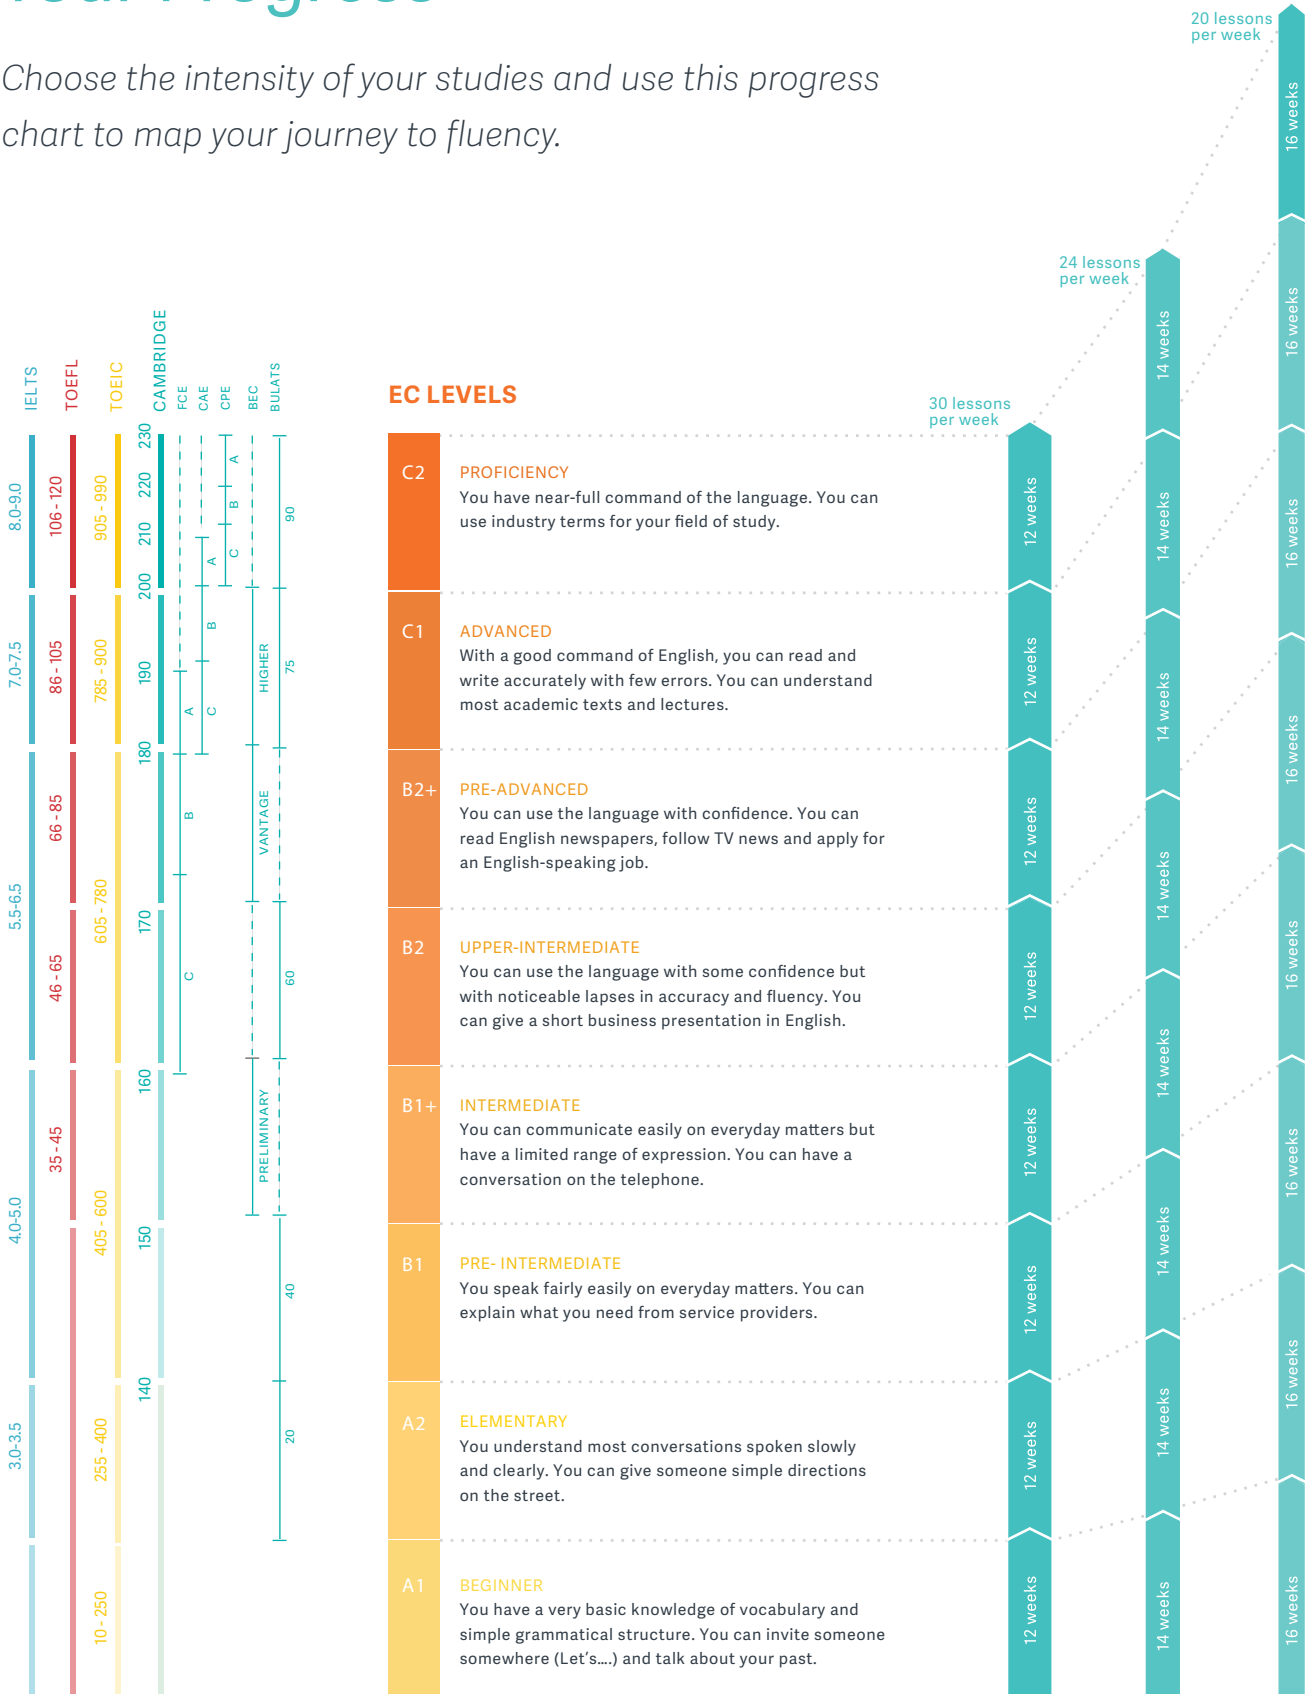

Independent learning is an important part of your academic journey, achieved through homework assignments that are set and monitored by your teacher. You will receive ongoing feedback, which will help and guide you towards fluency.

A holistic experience

Our commitment to you extends way beyond the classroom. Your learning will be supplemented with free language workshops and a full programme of leisure activities to help you activate your English in fun and authentic ways.

Your Progress

Choose the intensity of your studies and use this progress chart to map your journey to fluency.

OUR PEOPLE

Meet the teams who do their best every day to make your experience special. Ask them about academic matters, social activities or the best place to get good coffee! They are there for you.

Our Teachers

At the heart of everything we do is our dedicated teaching team. All of our teachers are professional, friendly and passionate about what they do. With their inspiring classes, and their personal attention and encouragement, your teachers' goal is to guide you towards fluency in the most effective, motivating and enjoyable way.

Our Central Academic Team

With professors, published authors and cutting edge education technologists, this team continually researches and applies the latest trends in learning science to our curriculum to ensure you make the best progress possible. Our central academic team also regularly presents at education conferences around the world.

Student Services Team

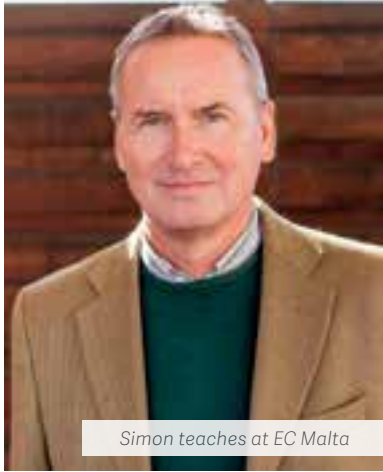

The full immersion experience is so effective because you activate classroom learning while exploring an authentic English-speaking city and making new international friends. Our Student Services Coordinators, Social Leaders and Student Ambassadors make sure your entire EC experience is exciting, happy and rewarding.

"I became a teacher with EC after a career in business which took me around the world for 30 years. This job is extremely rewarding, as I am given the freedom to challenge myself and my students, and be creative with my lesson plans and use of technology in the classroom. The result is really dynamic and engaging lessons, which are a pleasure to teach.

I enjoy the fact that each day is different and that I come into contact with students from all over the world."
